To

The Dealers in Motor Car Accessories.

Dear Sir/Gentlemen,

Subject :—

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the attached schedule, in the form printed overleaf.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Tyres and Tubes to Military Department."

This enquiry will be closed on the 16th November 1931.

Schedule.

No. S. P. C. 7700-19, dated 7th November 1931.

To

The Firms dealing in Electrical Goods.

Gentlemen,

MOTORS REQUIRED FOR THE COLLEGE OF ENGINEERING.

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the attached schedule. As these are required for use in Educational Institutions, we trust you would offer special discounts usually allowed to such institutions.

The quotations should be superscribed "Quotations for Motors required for the College of Engineering."

This enquiry will be closed on the 31st December 1931.

Motors required for the College of Engineering :—

Item No.	Description of article	Accurate specification	Quantity
1	"Cascade and Scherbius" speed control induction motor demonstration set.	(a) Two induction motors mounted on a bed plate and flexibly coupled to demonstrate "Cascade" speed control. (b) One three phase commutator motor with auto-transformer for "Scherbius" speed control of one of the motors of items.(a). This three phase commutator motor must be flexibly coupled on to an induction generator which has to feed back electrical energy to the mains. These two machines must be mounted on a common bed plate. The auto-transformer must have at least six taps with tap changing device. The set must be provided with all the controlling and protective devices to work on 220 volts, sixty cycles supply. The size of the machines may be such as to make cost of the set as low as possible but must be sufficiently large to demonstrate the above methods of speed control.	One set.
2	Exciter with the shunt field rheostat, etc., for the synchronous motor one exciter of the belted type BD-33-1-1—8 K. W. 1750 r.p.m. 125 volts, pulley, base and rheostat. One-field Discharge resister. One-field Rheostat for the field of the A. C. Machine.	For the synchronous motor three wire D. G. generator set.	One.

Yours faithfully,
M. S. RAMCHENDRA RAO,
Secretary, Stores Purchase Committee.
